

# UMB Institute for Clinical & Translational Research

April 5, 2018

www.umaryland.edu/ICTR

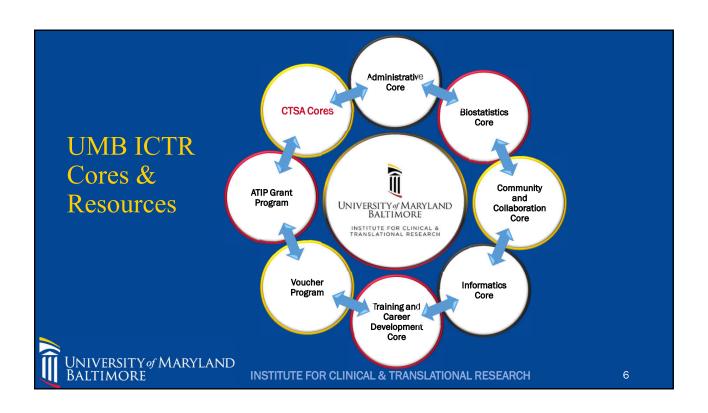

# UMB ICTR is disease agnostic, supporting multiple endeavors to support health across diverse communities and the entire lifespan.

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

## ICTR Biostatistics Core Leadership

Soren Bentzen, PhD, DMsc School of Medicine Director, ICTR Biostatistics Core

Laurence S. Magder, PhD School of Medicine Associate Director, ICTR Biostatistics Core

Shijun Zhu, DrE, MS School of Nursing Associate Director, ICTR Biostatistics Core

Eberechukwu Onukwugha, PhD, MS School of Pharmacy Associate Director, ICTR Biostatistics Core

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

7

#### **ICTR Biostatistics Core Services**

- · Formulation of Research Question
- Study Design Sample Size Calculation/Power Analysis
- Data Collection/Preparing Data for Analysis
- Data Analysis
- Interpretation of Results
- Reports and Publications
- Statistical Bioinformatics
- · Access to Data from Outside Sources

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

## ICTR Community & Collaboration Core

C. Daniel Mullins, PhD School of Pharmacy Director, ICTR Community and Collaboration Core

Elizabeth Galik, PhD, CRNP, FAAN, FAANP School of Nursing Associate Director, ICTR Community and Collaboration Core

Thomas W. Oates, DMD, PhD School of Dentistry Associate Director, ICTR Community and Collaboration Core

Fernando Wagner, MPH, ScD School of Social Work Associate Director, ICTR Community and Collaboration Core

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

a

## ICTR Community & Collaboration Core Services

- Consultations with PATIENTS Program Outreach and Partners to develop appropriate communications strategy for recruitment materials and dissemination
- · Creating focus group/interpreting results
- Developing participant instruction/recruitment videos
- Assembling advisory board
- Connecting with Citizen Scientists

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

### Community and Collaboration Core

Foster and facilitate community engagement and collaborative effort by providing access to expert patient- and community-centered services and resources, such as:

• E.g., Creating focus groups, participant instruction videos, and assembling an advisory board

Support and Expand researcher access to the PATient-centered Involvement in Evaluating the effectiveNess of TreatmentS (PATIENTS) resources and expertise

- Supported by the NIH
- National registry database of volunteers wanting to participate in research
- Over 7,000 volunteers registered within a 50-mile radius of Baltimore

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

11

#### ICTR Community Engagement Initiatives

Provide Research Vehicle for Community Outreach Projects and Research Studies

**INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH** 

J. Kathleen Tracy, PhD School of Medicine Director, ICTR Informatics Core

Eun-Shim Nahm, PhD, RN, FAAN School of Nursing Associate Director, ICTR Informatics Core

Fadia T. Shaya, PhD, MPH School of Pharmacy Associate Director, ICTR Informatics Core

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

#### **ICTR Informatics Core Services**

- Research Harbor Resources
- REDCap Database/Survey Development Services
- Qualtrics Survey Services
- Access to Clinical Data and other Specialized Datasets
- Data Use Agreement (DUA) Support
- Quality Assurance/Control Services
- Pre-review of data for "fit" to proposed project and data readiness for analysis
- Expertise on informatics projects that include end-user experience and user interface

**INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH** 

15

# ICTR Training and Career Development Core

Rose M. Viscardi, MD School of Medicine Core Co-Director

Susan Dorsey, PhD, RN, FAAN School of Nursing Core Co-Director

Wilbur H. Chen, MD, MS School of Medicine Co-Director, ICTR Studios

James D. Campbell, MD, MS School of Medicine Co-Director, ICTR Studios

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

#### **ICTR ATIP Grant Program**

The <u>A</u>ccelerated <u>T</u>ranslational <u>I</u>ncubator <u>P</u>ilot (ATIP) Grant Program provides starter funds for projects specifically focused on innovative, <u>translational</u> research that involve faculty from the UMB Schools and collaborative partners

# Innovative Collaboration Pilot Grant

- 4 or more awards
- 12 months of funding up to \$50K

# Community-Engaged Research Pilot Grant

- 1 award or more
- 12 months of funding up to \$50K

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

17

### ICTR Voucher Program\*

Gloria Reeves, MD School of Medicine Co-Director, ICTR Voucher Program

Thomas W. Oates, DMD, PhD School of Dentistry Co-Director, ICTR Voucher Program

To enable generation of data on clinical and translational research projects by defraying the costs of other UMB Core Services

\* Priority will be given to IRB-approved ATIP grants, K awards, and all funded, externally peer-reviewed, clinical and translational research

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

# ICTR Voucher Program

#### Up to \$10K in Voucher Support per Applicant

General Clinical Research Center (GCRC)

- Inpatient & Outpatient Unit; Open 24 hours a day, 7 days a week!
- Provides safe space and research nursing for clinical research studies
- Specimen collection & processing, study drug administration, DEXA machine, specialized procedures, i.e. biopsies, glucose clamps
- Research Subject Advocate
- Currently supports ~70 protocols per year, 85% federally-funded protocols
- Since 2011, GCRC has supported 230 active protocols, \$139.8 M in grant awards

Center for Innovative Biomedical Resources (CIBR)

- · The administrative home for the UMB biomedical core resources:
- Cytometric and Bioassay facilities, i.e. Cytokine Laboratory
- Clinical Resource Facilities, i.e. Translational Core, Cytogenetics
- Imaging Technologies, i.e. Magnetic Resonance Research Center
   Structural Biology Facilities, i.e. Mass Spectrometry, Protein Analysis

INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH

19

#### ICTR Resources, continued

#### **Studios**

 The "Studios" program brings together multi-, interdisciplinary experts to provide free, structured, project-specific feedback for researchers

#### Ask The Navigator

 The ICTR Research Navigator is available to help direct investigators to ICTR services and other UMB core services, as needed, and to advise them on the "next steps" in their clinical and translational research projects

Mobile Research Van

**INSTITUTE FOR CLINICAL & TRANSLATIONAL RESEARCH** 

# ICTR/CTSA Training Program

The overall goal of the Training and Career Development Program is to educate, train and develop future generations of clinical scientists needed to move basic research findings into novel therapies.

Training Award	# of Slots per year	Funding	Training Program Budget
TL1	5 (2 Pre-doc & 3 Post-doc)	12 months	\$315,386 for 5 trainees per year  Includes Stipend, Tuition & Fees, and Other expenses: Disability and Health Insurance, Travel to attend workshops/seminars
KL2	Year 1: 1 scholar Years 2-5: 2 scholars (Junior Faculty)	2 years (3 <sup>rd</sup> year: cost- shared)	\$517,260 per scholar Includes Salary support, fringe benefits, Other expenses: Travel, Tuition & Fees, and Research Funds
