MISSION

We shape the profession of nursing and the health care environment by developing leaders in education, research, and practice.

VISION

We develop preeminent leaders in nursing education, research, and practice. As a catalyst for creativity and collaboration, we engage diverse groups of professionals, organizations, and communities in addressing local, national, and global health priorities. Together, faculty, staff, and students create a rich and vibrant working and learning environment where knowledge is created and shared.

A passion for discovery permeates the educational process and advances the use of evidence as the basis for nursing practice. Accordingly, we are recognized for our scientific knowledge, critical thinking, interprofessional teamwork, and profound commitment to the health of individuals and communities.

VALUES

We embrace a culture that embodies the University's core values:

- Respect and Integrity -
- Well-Being and Sustainability -
- Equity and Justice -
- Innovation and Discovery -

AWARDS

American Nurse Journal All-Pro Nursing Team Award

Veronica “Ronnie” Quattrini, DNP, FNP-BC, April 2021

The American Nurse Journal All-Pro Nursing Team Award in 2021 recognized nursing teams that jumped into the fray, created policies and procedures in response to a novel virus, delivered excellent care, acted as surrogate family to isolated patients, and responded to their colleagues’ needs. Quattrini was honored as a member of the University of Maryland Medical Center COVID-19 Screening Hotline.

Health Professions Higher Education Excellence in Diversity Award

University of Maryland School of Nursing, November 2021

This annual award, presented by INSIGHT Into Diversity magazine — the oldest and largest diversity-focused publication in higher education — is the only honor recognizing U.S. and Canadian health schools that demonstrate an outstanding commitment to diversity and inclusion across their campuses. This is the fourth consecutive year that the School has received the award.

Friends of the National Institute of Nursing Research Ada Sue Hinshaw Award

Barbara Resnick, PhD, RN, CRNP, FAAN, FAANP, October 2021

The Ada Sue Hinshaw Award is the pre-eminent award given by FNINR, named in honor of the first permanent director of NINR. Recipients have a substantive and sustained program of science that afford them recognition as a prominent senior scientist with a trajectory of research that has transcended health and/or related disciplines and where outcomes have led to improved health and well-being of one or more populations. For Resnick, this research program is focused on optimizing function and physical activity among older adults, exploring resilience and genetics on function and physical activity, and testing dissemination and implementation of interventions in real-world settings.

Gerontological Society of America Douglas Holmes Emerging Scholar Paper Award

Sarah Holmes, PhD, MSW, October 2021

The Douglas Holmes Emerging Scholar Paper Award recognizes research with potential to improve quality of life and/or quality of care in long-term care and is intended to encourage and support innovative and promising research across long-term care settings. Sarah Holmes’ recognized paper is “Care transitions among Medicare nursing home residents with and without antipsychotic medication use.”

Nursing Outlook Best Paper Award

Alison M. Trinkoff, ScD, MPH, RN, FAAN; Carla Storr, ScD, MPH; Nancy B. Lerner, DNP, RN, CDONA, September 2021

Nursing Outlook, a bimonthly journal, provides innovative ideas for nursing leaders through peer-reviewed articles and timely reports. The journal awarded Trinkoff, Starr, and Lerner, along with three UMSON PhD graduates, its Best Paper award in the Policy category for “Comparing residential long-term care regulations between nursing homes and assisted living facilities.”

Sigma Chapter Key Award

Pi at-Large Chapter, November 2021

The Chapter Key Award, established in 1991, honors Sigma chapters that excel in chapter-related activities such as membership recruitment and retention; publicity and programming; professional and leadership development; and local, national, and international collaboration.

Alexandra Huntress-Reeve, BSN, RN

UMSON Dean's Medal for Distinguished Service

Shirley Ann Nathan-Pulliam, MAS, RN

In 2017, Jane Kirschling, the Bill and Joanne Conway Dean of the University of Maryland School of Nursing, established the Dean's Medal for Distinguished Service to recognize individuals, external to the institution, who have demonstrated "an exceptional commitment to advancing the University of Maryland School of Nursing and its mission." That year, the inaugural recipients of the Dean's Medal, Bill and Joanne Conway, were recognized for extraordinary support for nursing education through the Conway Scholars Program.

A dedicated public servant, Senator Nathan-Pulliam served in the Maryland House of Delegates for 20 years, from 1994 - 2014, and subsequently in the Maryland State Senate for five years, until her retirement on Dec. 1, 2019, due to health concerns. She was the first Caribbean-born person and the first African-Caribbean registered nurse elected to the Maryland General Assembly.

Senator Nathan-Pulliam has had a profound impact on health care in the Maryland region. Keenly aware of problems with access and quality of care, she has been a leading advocate for improved health care for the underserved and for addressing health care disparities.

As a legislator, her initiatives included funding for breast cancer diagnosis and treatment, an oral cancer mortality reduction program, and treatment for co-occurring disorders of substance use and mental illness. She sponsored legislation creating the Healthcare Disparities Prevention Act and establishing the Maryland Office of Minority Health and Health Disparities. She successfully led efforts to require education in cultural competency for health care professionals. There is virtually no area of health care policy and legislation that was not touched by her during her 24-year tenure in the Legislature.

Throughout her career, she maintained her active license as a registered nurse in Maryland and leveraged her nursing education and knowledge and her roots in nursing practice to inform policy development. She has received more than 30 awards and honors during the course of her career and was recognized as one of the School of Nursing's inaugural Visionary Pioneers on the occasion of the School's 125th anniversary.

UMB Honorary Degree Recipients

William E. Conway Jr. and Joanne Barkett Conway,
Honorary Doctor of Public Service

Nominations for honorary degrees must be approved by the Board of Regents of the University System of Maryland, upon the recommendation of the Board's Committee on Education Policy and Student Life. Recipients must be individuals who have made exceptional contributions in intellectual, scholarly, or creative areas; who have risen to a position of eminence in their chosen field or acquired a national or international reputation in a selected field or endeavor; or who have compiled a record of distinguished public service.

In 1997, Bill and Joanne Conway, working in the partnership that has so significantly shaped their philanthropy, established their charitable trust, the Bedford Falls Foundation. The Foundation provides funding primarily for social services, Catholic agencies and churches, health organizations, hospitals, and human services. The Conways serve as Trustees of the Foundation and have a deep and hands-on understanding of the needs of the institutions that their Foundation supports.

As visionary philanthropists, the Conways are transforming the landscape for nursing education at the University of Maryland School of Nursing and at nursing institutions throughout our region. Their contributions to the School of Nursing have totaled close to \$30 million since 2015 and by 2027 will have provided full-tuition scholarships to more than 820 Conway Scholars.

The Conways' influence and impact extends far beyond the establishment of scholarship programs in Maryland, Pennsylvania, Virginia, and the District of Columbia; it will continue to be felt in the decades ahead with the enhanced educational attainment and increased diversity of our regional nursing workforce.

DAISY Awards

An acronym for Diseases Attacking the Immune SYstem, The DAISY Foundation was formed in November 1999, by the family of J. Patrick Barnes, who died at age 33 of complications of Idiopathic Thrombocytopenic Purpura. The nursing care Patrick received when hospitalized profoundly touched his family. Cynthia Sweeney, DNP, BSN '76, RN, CNOR, NEA-BC, serves as vice president of nursing, emerita, for the foundation.

DAISY AWARD FOR EXTRAORDINARY NURSING FACULTY

This award honors faculty who inspire their students to remember that nursing is much more than tasks and technology. They help ensure that the art as well as the science of nursing are brought to every patient experience.

Regina Phillips, PhD, RN, CNE
Assistant Professor
awarded December 2021

Phillips' passion for nursing education was noted in the nomination submitted by one of her students in pathopharmacology: "Dr. Phillips has made an extraordinary impression on my first semester of the Clinical Nurse Leader program. She is extremely knowledgeable in pathopharmacology and demonstrates excellence every day. She serves as a role model by sharing her personal experience as a clinical nurse, her accessibility to students for best learning, and informative and entertaining lectures. The material in her class is far from easy, and yet she makes it interesting to always want to study first. Each week, she records videos for what to expect for the week, and I eagerly look forward to watching them each week. Dr. Phillips certainly deserves the DAISY award. She demonstrates excellence in and out of the classroom. It is evident she cares about each of her students on an individual basis, and it shows. It makes a large university feel like an intimate family. She demonstrates enthusiasm at 9 a.m. every Wednesday and Thursday for a total of *five hours* a week. If there is any opportunity for her to teach another course for the CNL curriculum, please consider her. She is enthusiastic, intelligent, kind, flexible, and cares very much for individual success of her students."

DAISY AWARD FOR EXTRAORDINARY NURSING STUDENTS

By recognizing nursing students for their care and compassion for patients and their families, The DAISY Foundation recognizes and celebrates what it means to be a nurse.

In that sense, the generosity that I have benefited from you will touch the lives of many over the years. What a magnificent thing to think about! And I feel so honored to be a carrier of this message: that we can never truly know the exponentially large effect helping one person could have on our community.”

PI AT-LARGE CHAPTER LEADERSHIP

as of March 31, 2022

Established at UMSO in 1959, the Pi at-Large Chapter of Sigma, the international honor society of nursing, is one of the oldest and largest chapters in the world. The purpose of the chapter is to honor those who have achieved high academic success and support scholarship and research at all levels in the School. On Sept. 21, 2020, UMSO's Pi Chapter of Sigma international nursing honor society officially recognized Anne Arundel Medical Center as a member organization during a chartering ceremony, thus changing the chapter's name to Pi at-Large Chapter.

FACULTY ACCOMPLISHMENTS

Inaugural MPower Professor

Eight professors from the University of Maryland, Baltimore and the University of Maryland, College Park, four from each university, were chosen as inaugural MPower Professors in November 2021. This award from the University of Maryland Strategic Partnership: MPowering the State (MPower) recognizes, incentivizes, and fosters faculty collaborations between the universities. Faculty selected for this first-ever award exemplify a commitment to interdisciplinary and interprofessional collaboration, which is at the heart of the MPower strategic partnership. They are bridging research and scholarship between institutions to foster innovation that will impact the citizens of Maryland and beyond. Each professor receives \$150,000, allocated over three years, to apply to their salary or to support supplemental research activities. These funds recognize, enable, and support strong collaborations between faculty at both institutions.

Luana Colloca, MD, PhD, MS, is a professor in the Department of Pain and Translational Symptom Science and the director of the Clinical and Translational Science Award TL1 Pre- and Postdoctoral Training Program. She also chairs the Pain and Placebo Special Interest Group for the International Association for the Study of Pain and serves as treasurer for the Society for Interdisciplinary Placebo Studies. She is considered a world expert in the fields of placebo effects and mechanisms of pain modulation, including virtual reality applied to pain management.
