

Doctor of Nursing Practice Nurse Anesthesia Track Update 2021

Bruce Schoneboom, PhD, CRNA, FAAN (PI); Catherine Horvath, DNP, CRNA, CHSE, Andrew Benson, DNP, CRNA, FAAN; Marjorie Everson, PhD, CRNA; and Robert Long PhD, CRNA

Supported by Grant NSP II 21-110

Background

The Doctor of Nursing Practice (DNP) Nurse Anesthesia track at Johns Hopkins School of Nursing continues to make significant progress in meeting the goals of its Nurse Support Program (NSP) II implementation grant. We have implemented the first year of the curriculum in an entirely online (at a distance) format due to the covid-19 pandemic and are currently finishing the third semester for the inaugural cohort of 20 students.

Name Change

We have implemented a name change to the track from "Nurse Anesthesiology" to "Nurse Anesthesia" due to concerns expressed from our clinical partners and the Maryland Society of Anesthesiologists.

The screenshot shows the website for the Summer Institute in Anatomy. At the top, it features the Johns Hopkins School of Medicine logo and navigation links for FAE Home, JHM Home, and JHU Home. The main heading is "Summer Institute in Anatomy FOR UNDERGRADUATES AND GRADUATES". Below this is a group photo of students and faculty. A navigation menu on the right includes links for HOME, ABOUT US, APPLICATION, TUITION & CREDITS, ACCOMMODATIONS, FAQs, TESTIMONIALS, and CONTACT US. A prominent green "APPLY HERE" button is visible. Below the button are social media icons for Facebook and Twitter. The "About Us" section text states: "The course is team-taught by the same faculty who teach anatomy to the first year medical students at the Johns Hopkins University School of Medicine, together with graduate student teaching assistants from the same department." It also mentions participation in the Center for Functional Anatomy and Evolution and provides the website www.hopkinsmedicine.org/fae.

Inaugural Cohort (Class of 2023)

Our original cohort of 2023 will begin in-person instruction in May of 2021 to include a cadaveric anatomy course offered by the School of Medicine and a simulation boot camp to prepare student registered nurse anesthetists for their first clinical rotations at the Johns Hopkins hospital and affiliates in the fall of 2021.

2ND Cohort (Class of 2024)

We have also successfully accepted the second cohort and anticipate matriculating 25 students in May 2021. We will continue online instruction for year 1.

The screenshot shows the top navigation bar of the Johns Hopkins Medicine website. It includes the logo, navigation links for "Find a Doctor", "Appointments", and "Login to MyChart", a search bar with a "Search" button, and a main menu with links for "ABOUT", "HEALTH", "PATIENT CARE", "RESEARCH", and "SCHOOL OF MEDICINE".

Simulation Center

The screenshot shows the website for the Johns Hopkins Medicine Simulation Center. It features a navigation menu on the left with links for Overview, About Our Program, Our Teams, Training, Resuscitation, Research, Our Facilities, and Contact Us. The main content area has the heading "Johns Hopkins Medicine Simulation Center" and a background image of a simulation lab. A breadcrumb trail at the bottom reads "Home > Simulation Center".

Curriculum Development and Instructional Design

Faculty continue to build 15 unique courses with the Johns Hopkins School of Nursing instructional design team with five courses successfully completed and implemented.
