What is Degree Works

Degree Works is a degree audit and advising system to help students, administrators, and advisors plan for academic success. Degree Works is a stand-alone system, separate from Banner, but is highly dependent on the accuracy and completeness of student records in the Banner Student system, which provides Degree Works with its underlying academic history and curriculum data.
The Landing Page

You can enter the students @ I.D. number or do an Advanced Search to look by First and Last Names. Advisors should have a Drop Down arrow for their students. After entering the student ID, click enter.

Advance Search:
Enter the students First and Last names, then click SEARCH.
You could also find groups of students by searching by the Tabs or click CUSTOM AND search these Tabs for a special student population.
The Worksheet
You will see all of the up to date information on the student under the Worksheet.
Scroll down to view the students’ academic record. It shows what the student has taken and what the student still needs to complete the degree.

### DNP - Family Nurse Practitioner
