

Postdoctoral Research Training Program

**Now accepting applications for
postdoctoral fellowship positions
in these areas of research:**

Community Engagement/Health Disparities

Geriatrics/Gerontology

Multiomics

Pain and Symptom Science

University of Maryland School of Nursing supports groundbreaking research and scholarship that enhance the field of nursing, influence modern health care, and spark new thinking behind the ways in which we care for each other as a society. We are:

- a national leader in receipt of funding from the National Institutes of Health (NIH)
- the site of three organized research centers and a National Institute for Nursing Research (NINR)-funded P30 Omics Associated with Self-Management Interventions for Symptoms (OASIS) Center (NIH/NINR P30NR016579).

Funding is provided by UMSON and/or the NIH National Center for Advancing Translational Sciences (NCATS) Clinical and Translational Science Award (CTSA) Program, a joint CTSA partnership between University of Maryland, Baltimore (UMB)* and Johns Hopkins University.

**a collaborative effort among UMB Schools of Dentistry, Law, Medicine, Nursing, Pharmacy, and Social Work*

Applications will be accepted on a rolling basis.
